1852 Loyal to San Francisco 1952

BRITTON & REY

ESTABLISHED 1852

Office: 631 FILLMORE ST.

Works: Bay and Powell Sts.

WE intend to complete our century of business life in the most beautiful city in the world—GREATER SAN FRANCISCO.

Like Greater San Francisco, we are making opportunity of disaster by rebuilding in larger and better form. Our new machinery is on the way and will compose the most modern, homogeneous and efficient plant in America.

Our present facilities can execute **right now,** properly and promptly, **any Printing** or **Lithographic Work.**

Send rush orders to our temporary office,

HEALD'S ASSOCIATED COLLEGES

Heald's Business College	Heald's Dixon College
1451 Franklin Street	Bacon Block, Washington St.
Bet. Sutter and Bush Sts.	Bet. 11th and 12th Sts.
San Francisco, Cal.	Oakland, Cal.

These Schools prepare pupils thoroughly for commercial pursuits in all lines; also for practical work in all the Engineering professions. The success of their graduates is well known to the whole community.

HEALD'S COLLEGE

Has become a household word all over the Pacific Coast, as it has stood in the front rank of our Educational institutions for forty-three years.

PUPILS CAN ATTEND EITHER SCHOOL.

Pupils paying at one school can attend the other school if found more convenient. Both schools are thoroughly up to date in their methods.

POSITIONS FOR GRADUATES.

The Heald Colleges have always made it a point to take care of its pupils and to furnish situations to all worthy graduates. No pains will be spared in the future to find employment for those who attend any of its Associated Colleges.

HEALD'S SCHOOL OF ENGINEERING

Gives pupils a scientific and practical training in Mining Engineering, Electrical Engineering, Civil Engineering, Steam Engineering and Gas Engineering.

RATES OF TUITION

Are as low as is consistent with first class instruction. The **HEALD** Schools stand for **quality**, and any one patronizing them knows he will get the best that is to be had in the Educational line. This is why their graduates are invariably successful in their callings.

FULL INFORMATION

May be had in regard to any of the Schools or any of the Departments by addressing

E. P. HEALD, President

WESTERN EXPANDED METAL AND FIRE-PROOFING CO, Samuel W. Backus pres, 730, 2d

Home Industry. Keep Your Money at Home

Western Expanded Metal & Fireproofing Company

Factory Not Destroyed Now Running Full Time

We are prepared to furnish all gauges of Expanded Metal and all sizes of the famous Corrugated Steel Bars, for use in reinforced concrete construction. We have made arrangements with Eastern Associates and Rolling Mills to furnish all above materials, enough to rebuild San Francisco. Now booking orders. We will take care of you.

Office and factory, 730 Second Street, near Townsend.

The Western Expanded Metal & Fireproofing Co. came out of the calamity with their factory and shop intact and are now engaged in doing considerable repair and construction work, being probably the first ones to get actually at work on the Kohl Building, corner of California and Montgomery Streets, which building was originally fire-proofed by this Company, and came out of the fire in better condition than any other building in the fire limits.

The Company's factory is now running, usual time, and are filling large orders for Expanded Metal, and are prepared to furnish Expanded Metal of all gauges and sizes, as well as the famous Corrugated Steel Bars, for which they are the agents on the Pacific Coast, for fireproofing purposes, and have arranged with their Eastern Associates and Rolling Mills to take care of every order they may require in San Francisco, even to the extent of the entire rebuilding of this city.

The buildings fireproofed by this Company, like the Fairmont Hotel, the Kohl Building, the Monadnock, the Newman & Levison, California Wine Association Building, the J. A. Folger Warehouse, Ferry Building, United States Postoffice and Courthouse Building, 7th and Mission Streets, Young Building, corner Spear and Market Streets, and many others came out of the fire in splendid condition and show the value of their construction. As this is a Home Industry builders should calculate to patronize the same before sending their money abroad.
